- *The terminal must be online*

Always leave the terminal logged out

- New software versions will come automatically when you log in

"Light" in the P&S login display is:

- **GREEN:** If all data has been delivered
- **YELLOW:** If data is being delivered
- **RØD:** If there is data that cannot be delivered

Network management

Scanner Pro2 uses the SCU programme for network management

- Create profile
- Change profile

SCU is used if the error "No connection to the server" is displayed

In case of network problems - see the guide "Guide PRO2 og PRO3 – Wireless network setup"

In case of problems, contact:

Carsten (+45) 61797806, Bent (+45) 40586083 or Susan (+45) 30115298. Pack and Sea will contact Lyngsøe.
